

5 Plus

Purpose:

You can help your child to practise the 5 plus addition facts.

What you need:

- Dice
- A pack of cards – use the 6, 7, 8, 9, 10 cards.

What to do:

Shuffle the cards and deal 5 cards to each player.

The first player rolls the dice and adds 5 to the number. Throw again if a 6 comes up. For example, if you roll a 3, then $3 + 5 = 8$. If the player has a card with that total, for example 8, she or he can put the card on the table. The next player has a turn.

The winner is the first player to put all their cards on the table.

What to expect your child to do:

Over time expect your child to instantly recall the addition facts of 5 plus.

Variation:

- Roll the dice and ask your child to quickly add 5 to the dice number.
- Use your home language to play this game.

He Kupu Māori:

riwhiriwhi (~a)	shuffle
toha (~ina)	deal, distribute
pīrori (~a)	roll (e.g. a dice)
mataono tau	dice
tapeke	total
tāpiri (~hia)	add
kāri tau	number card

He Whakawhitinga Kōrero:

- Riwhiriwhia ngā kāri. (*Shuffle the cards.*)
- Tohaina kia rima ngā kāri ki tēnā ki tēnā o tātou. (*Deal 5 cards to each of us.*)
- Kei a koe i te tuatahi. Pīroria te mataono tau. (*Your turn first. Roll the dice.*)
- Tāpirihia te rima ki tēnā tau. (*Add 5 to that number.*)
- He aha te tapeke? Kei a koe tēnā kāri tau? (*What's the total? Have you got that number card?*)
- Whakatakotoria ki te tēpu. (*Put it down on the table.*)
- Kei ahau ināianei. Māku e pīrori te mataono tau. (*My turn now. I'll roll the dice.*)
- Kua whakatakotoria katoatia aku kāri. Ko au te toa. (*All my cards have been put down. I'm the winner.*)
